Missouri Department of Insurance

Missouri Department of Insurance

This 127th edition of the Missouri Department of Insurance's "Annual Report and Statistical Data" covers the calendar year 1996.

The department was created by the Missouri legislature on March 4, 1869 to regulate the insurance industry. At that time, 171 insurance companies operated in the state with 51 domiciled here.

By Jan. 1, 1997, the insurance industry in Missouri had grown to 1,818 licensed insurance companies, and 309 of those were domiciled here. The industry wrote \$12.4 billion in premium in 1996 and contributed \$187,746,289 in taxes and fees to the state.

As of Jan. 1, 1997, the state had 6,789 licensed agencies, 64,959 licensed agents and 7,219 licensed brokers.

The latest data compiled by the National Association of Insurance Commissioners for the year ending 1994 indicates that Missouri ranks 19th in premium volume written.

The Missouri Department of Insurance was a division within the Department of Economic Development before June 30, 1991. The department became a Cabinet-level agency after voters passed a constitutional amendment on Aug. 7, 1990.

The mission of the Missouri Department of Insurance is to promote competition where it works and to implement regulation where competition fails so that consumers can make informed decisions based on price and quality.

To accomplish that mission, the department strives to:

- Ensure that consumers get the benefits for which they paid;
 - Ensure competence and trustworthiness of insurance professionals;
 - Ensure consumers have access to affordable and suitable coverage; and
 - Ensure that insurance companies remain financially solvent so that customers get their claims paid.

Administration

Administration

The director of the Missouri Department of Insurance is appointed by the governor with the advice and consent of the Senate.

The director is responsible for enforcing the insurance laws and regulations of the state, setting policy, managing a staff of 210.5 full-time employees and overseeing a fiscal year 1997 budget of \$10.3 million.

The director's administrative staff includes the deputy director, four division directors, general counsel, life actuary, property and casualty actuary, designated principal assistant, administrative assistant, personnel officer, public information officer, research analyst and a secretary.

The administrative staff assists the director with policy decisions, regulation, legislation and departmental operations.

Legal

The primary responsibility of the legal staff is to assist the director of the Department of Insurance in the enforcement and interpretation of Missouri laws.

Department lawyers are involved in legal issues and proceedings related to financial and market conduct examinations. They work on rate and policy form matters involving the areas of life, health, property, and casualty. Attorneys also provide assistance in the filing of receivership and conservatorship documents. The staff drafts proposed legislation and regulations.

The staff represents the department before courts and the Administrative Hearing Commission regarding licensing disputes with agents, agencies, and brokers. Additional hearings conducted by department attorneys include the acquisition or merger of insurance companies, reinsurance proposals, and proposed regulations.

Division of Financial Regulation

Division of Financial Regulation

The Division of Financial Regulation is responsible for determining the financial condition of all domestic (Missouri) and foreign (out-of-state) insurance companies operating in the state. To make that determination, the division examines all domestic insurance companies and analyzes the financial statements and related documents of all companies licensed to sell insurance in Missouri. The division strives to prevent insolvencies of domestic companies and takes appropriate action against financially unsound or incompetently managed foreign and domestic companies to protect policyholders and taxpayers. In addition, the division regulates various insurance transactions, analyzes all companies' financial statements and related documents, and examines the companies prior to issuing licenses to sell insurance in Missouri.

The division monitors, advises and reports on the operations of both domestic and foreign insurance companies that are in rehabilitation or liquidation.

The division is responsible for administering and accounting for premium taxes and filing fees due to the state of Missouri and accounting for insurance companies' deposits held for the benefit of policyholders.

The division is comprised of the examination, financial analysis, taxation, admissions, receivership and surplus lines sections.

Financial Examination

The primary responsibility of the Financial Examination Section is to enforce the rules and financial standards prescribed by Missouri statutes and the National Association of Insurance Commissioners (NAIC).

The insurance director has authority within Missouri insurance statutes to call for an examination of licensed insurers whenever it is deemed necessary. The Financial Examination Section coordinates with the Financial Analysis Section to determine each company's examination priority. It is the section's intent to examine each domestic insurance company at least every three years.

The chief examiner arranges for the scheduling and staffing of all examinations with the support of an assistant chief examiner and two audit managers. The financial examiners are trained to follow generally recognized examination procedures in accordance with Missouri insurance statutes and NAIC standards. Examination findings are set forth in a report which is filed by the director as a public document. If statutes or regulations are violated, appropriate action is taken to assure that company compliance is maintained.

A separate fund pays for the cost of examinations and examiner salaries. This fund is replenished by the companies examined.

Financial Analysis

The Financial Analysis Section is responsible for the financial review and continued monitoring of all domestic and foreign insurance companies doing business in Missouri. This detailed analysis is used in determining an insurer's solvency and compliance with applicable Missouri statutes and regulations.

The analysts review the financial and operational information provided by insurers to evaluate a company's financial condition. The analysts also utilize established financial ratios for the rapid detection of financially distressed or insolvent companies. This detailed review is done on an annual and quarterly basis. Based on this analysis, financial examinations are prioritized, or additional regulatory action is initiated.

The analysts recommend the approval or disapproval of proposed business transactions by Missouri-domiciled companies. The analysts evaluate complex mergers and acquisitions, payment of dividends and various other proposed transactions for financial and operational impact.

This section also participates in the NAIC Financial Analysts Working Group, which is responsible for monitoring financially distressed companies at the national level. This participation includes reviewing protective actions by domiciliary states and determining their impact on Missouri consumers.

Other duties performed by the analysts include:

1. Review and evaluation of financial information regarding the admission applications for foreign companies wishing to obtain a license to do business in Missouri.
 2. Review of examination reports submitted by foreign companies. This review serves as an additional tool for the regulatory surveillance of foreign companies.
 3. Recommendation and participation in administrative action against insurers.
 4. Provision of detailed information to outside parties interested in forming new insurance companies and the procedures necessary to implement such.
 5. Provision of informational support to the department's legislative liaisons and ad hoc inquiries as requested.
-

Securities

The Financial Analysis Section is also responsible for the control and accounting of joint deposits required by Missouri law as security for the benefit of policyholders. At one time, this represented the major portion of the joint deposits. However, with the establishment of the Life and Health Guaranty Association in 1988, companies were allowed to withdraw 80 percent of their reserve deposits immediately, followed by 5 percent a year over the next four years.

The securities are held at a contracted bank in Jefferson City or in safe deposit boxes in Jefferson City, Kansas City, St. Louis and Springfield. According to Missouri statutes, the securities must be eligible for deposit. Security balances are verified through financial examinations. Certified copies of security deposits are available upon request.

The department held \$260,487,184 in securities as of Dec. 31, 1996.

Type of Deposit	Percent of Total Deposits	Total Amount of Deposits

Taxation

The Taxation Section determines the amount of premium taxes insurance companies pay to Missouri. Annual tax returns are filed on March 1 for the previous year's business. After an audit, the Department of Insurance certifies to the Department of Revenue the amount of tax due from each company.

On the Missouri premium tax rate of 2 percent, collections were \$155 million in 1996 compared to \$157 million in 1995. Insurance companies also paid a 1 percent workers compensation tax for 1996 of \$5 million. Employers self-insuring for workers' compensation paid a 1 percent workers compensation tax for 1996 of \$4.7 million.

Several credits are allowed against this tax, including expenses for examination fees, income taxes, franchise taxes, valuation fees, secretary of state registration fees, health pool assessments, personal property taxes, insurance guaranty association assessments and various economic benefit program credits including neighborhood assistance, new business facility, low income housing, affordable housing, certified capital company, infrastructure development, export finance and development and reserve credits. The total credits allowed in 1996 were \$19 million.

Missouri law also allows direct premiums to be reduced by dividends, returned premiums, group health benefits paid, and premiums on annuities. Deductions for group health benefits paid in 1996 totaled \$822 million. Deductions for annuities were \$958 million.

Excess and Surplus Lines

The Surplus Lines Section regulates the excess and surplus lines market. Surplus lines include coverage for risks that do not fit normal underwriting patterns or where coverage is not available through the admitted market.

Individuals who have a Missouri property and casualty license may receive a surplus lines license by passing an examination, completing an application, paying a \$100 fee and filing a \$10,000 bond.

In 1996, Missouri had 273 brokers licensed to sell surplus lines. The department approved 23,382 surplus lines placements and 19,512 amendments for 42,894 filings.

Missouri surplus lines brokers are responsible for filing a report with the department on each surplus lines placement within 30 days of the effective date of the coverage. They are also required to file an annual tax report, due March 1, which lists all surplus lines transactions for the previous year.

The total taxes on surplus lines collected in 1996 amounted to \$8,175,977. Surplus lines brokers are assessed a tax on net premium written, which generated \$6,692,496 in 1996. The law also allows an individual to self-procure insurance in the surplus lines market. Self-procured surplus coverage generated taxes of \$1,375,835. Because of audits conducted by examiners, \$107,646 in previously unreported taxes was collected.

Taxes paid after April 16 of the year in which they are due are subject to penalty and interest. Penalty certified to the director of revenue for collections was \$28,261 and interest was \$34,660.

A list of Missouri-approved, non-admitted carriers is included in this report. There are 175 approved non-admitted carriers plus 159 Lloyd's Syndicates, or 334 eligible carriers for surplus lines.

Total	\$ 8,175,977

Admissions

The Admissions Section of the Division of Financial Regulation licenses all types of insurance companies that conduct business in Missouri.

As of Dec. 31, 1996 there were 1,818 insurance companies licensed. The Admissions Section receives four to six new admissions each month. These admissions packets are reviewed for compliance with Missouri statutes. Financial analysts then perform a review, and policy analysts review the policy forms. The chief examiner and director review the packets for final approval of licensure. The Admissions Section then issues the certificates of authority.

In addition to licensure of new admissions to Missouri, the Admissions Section tracks licensed companies' compliance in meeting all financial filing requirements and paying all filing and renewal fees.

This section is also responsible for tracking any name changes, mergers, acquisitions, redomestications, address changes, assumption of business or any amendments to companies' certificates of authority. Changes regarding articles of incorporation, bylaws and officers and directors are also tracked. The Admissions Section must also monitor company status regarding liquidations, receiverships, rehabilitations and suspensions or revocations of their certificate of authority in Missouri and in their domiciliary states.

This section tracks the complete history of a company from the time of its licensure in Missouri to present, to give policyholders and the public complete and accurate information regarding the status of their insurance company.

A listing of all newly licensed companies for 1996 is contained in another section of this report. Listed below are company changes tracked by this section during 1996:

40 Redomestications
28 Mergers
90 Name changes
36 Assumption of business
29 Amendment to certificate of authority by adding or deleting lines of business
4 Suspended certificates of authority
5 Revoked certificates of authority

Receivership

The Receivership Section is organized under the Division of Financial Regulation. The primary responsibilities of this section are to monitor, advise, and report on the operations of insurance companies that are in rehabilitation or liquidation.

If an insurance company experiences financial troubles or asks to be dissolved, the director may take control of the insurer under court order and administer the company's operations to the benefit of policyholders and creditors. To provide additional protection to the policyholders of an insolvent insurer, Missouri consumers are protected by the Missouri Life and Health Insurance Guaranty Association and the Missouri Property and Casualty Insurance Guaranty Fund, which assess all such insurers in Missouri to cover unpaid claims of insolvent insurers.

In 1996, Ozark Benefit Association, a domestic insurer, was placed into rehabilitation, and Lutheran Benevolent Insurance Exchange was placed into liquidation.

In 1996, five receiverships were completed and closed:

- American Independence Life Insurance Co.
- Continental Security Life Insurance Co.
- Missouri National Life Insurance Co.
- Professional Mutual Insurance Co.
- Protective Casualty Insurance Co.

The Division of Financial Regulation has made substantial progress in the area of monitoring receiverships. Information concerning receivership activities and current financial status is maintained, and reports on the progress of the receiverships are updated regularly. The section also regularly responds to inquiries from the public and other state insurance departments.

To effectively administer the operations of a company in rehabilitation or liquidation, the director appoints an on-site special deputy receiver. With the exception of the deputy for Transit Casualty Co. in receivership, who by court order serves under the supervision of the court, this individual serves under the supervision of the director and is considered the primary contact person for the receivership.

Sixteen domestic companies were in either rehabilitation or liquidation as of Dec. 31, 1996. The following is a list of the companies and the appointed special deputy or contact person:

Division of Market Regulation

Division of Market Regulation

The Division of Market Regulation has five sections: market conduct examination, life and health, property and casualty, managed care and statistics.

The Market Conduct Examination Section reviews how a company operates in the marketplace. Market conduct examiners analyze whether the company is following Missouri law in writing insurance policies, advertising its products, setting its rates and the handling of its claims.

The Life and Health Section and the Property and Casualty Section are responsible for the review of company products, rates and underwriting rules. The new Managed Care Section, created in 1997, oversees policy development, implementation of legislation and data collection and analysis related to health maintenance organizations (HMOs) and other managed care entities.

The Statistics Section collects data from the financial statements filed by the companies, from consumer complaint data, and from other data bases filed electronically. That data is used to identify and analyze trends. In addition, there are statutory reporting requirements for certain lines of insurance. This section uses these data bases to develop reports that are available to the industry and the public.

Market Conduct Examination

The Market Conduct Examination Section monitors the insurance industry's conduct in the Missouri marketplace. Market conduct examinations can serve as a preventive measure by identifying areas where the company can make improvements to guarantee compliance with Missouri law. Market conduct examinations serve to verify that Missouri policyholders and beneficiaries receive the full benefits from the contracts into which they entered.

The section performs field examinations of title, life, accident and health, and property and casualty insurance companies, as well as health maintenance organizations, health service corporations, third-party administrators and statistical reporting agencies.

The market conduct examination may include any or all of the following areas:

- Claims handling
- Company rates, rating policies and procedures
- Complaint handling
- Licensing of agents, agencies and brokers
- Marketing and advertising practices
- Underwriting
- Policy forms
- Unclaimed property

In 1996 the Market Conduct Section finalized 30 examinations and assessed forfeitures totaling \$1,058,693, payable to the Missouri State School Fund, for improprieties cited during examinations.

Life and Health

Because all life, health and annuity products that insurers issue in Missouri must first be approved by the department director, the Life and Health Section must assure that these products and related forms comply with Missouri's insurance laws and regulations. This prior approval requirement extends to all insurance contracts issued in Missouri by insurers, health service corporations, health maintenance organizations (HMOs), fraternal benefit societies and prepaid dental plans. The Life and Health Section receives more than 10,000 filings of forms and rates each year. The filing fees, required by law to accompany these filings, totaled \$345,200 in 1996.

Some insurance products are subject to more stringent regulatory oversight in the interest of consumer protection. Abuses and confusion about the Medicare supplement market led to federal laws that require states to allow only standardized policy forms and to enforce compliance with minimum loss-ratio standards. The Life and Health Section only will approve rates that will result in an acceptable ratio of benefits to premiums. If rates prove to be excessive, the director may require insurers to refund excess premiums to policyholders or forgo future rate increases.

Senior citizens are often the focus of other abusive insurance practices, resulting in laws and regulations addressing long-term care insurance and graded benefit life insurance policies. The Life and Health Section assures that such policies fully comply with requirements of these laws.

The Missouri Small Employer Health Insurance Availability Act was implemented in 1994 to make health insurance more accessible for employers with 3 to 25 full-time employees. The law restricts an insurer's ability to exclude pre-existing conditions, requires the offer of two standardized benefit plans and imposes some restraint on the difference between the highest and lowest rates. The Life and Health Section reviews the products and rating mechanisms in this market.

The Life and Health Section reviews the applications of utilization review organizations (UROs), which conduct prospective or concurrent reviews of the appropriateness and necessity of health care resources and services provided to insured persons in this state, registered to do business in Missouri as well as processes the annual renewal applications of the 160 UROs that are currently registered.

The Managed Care Section, created in 1997, oversees policy development, implementation of new legislation and the analysis of statistical data for HMOs and other regulated entities that manage health care as part of the insurance process. The section's creation coincided with heightened public and legislative expectations for the regulation of and information on managed care insurers, which have become major forces in health care insurance and delivery, covering 1.3 million Missourians in 1996.

In 1997, the General Assembly enacted House Bill 335, a major overhaul of Missouri's managed care and HMO statutes, which included among the nation's most extensive statutory safeguards for managed care consumers. The section will play a key role in developing the essential rules and enforcement programs for implementing that legislation.

Property and Casualty

The Property and Casualty Section reviews forms, endorsements, rules and premium rates submitted by insurance companies. The staff then determines whether the insurance companies are in compliance with state rules and regulations.

Missouri has an open competition regulatory system known as "use and file" that does not involve rate approval. Companies are required to file, for personal lines, their rates within 10 days after they begin using them. Workers compensation insurers must file rates within at least 30 days after instituting them.

For commercial casualty lines, the rate effective date shall be no earlier than 60 days following the date received by this agency. However, this provision may be waived, if policy review has been completed before that time.

The department still monitors rates by reviewing premium volume, market share, loss and expense experience, investment income, profitability, inflation trends, historical data and other criteria.

Residential property insurers are also required to file their underwriting guidelines with the department. While some information on the underwriting guidelines is received on a confidential basis, such filings give the department an opportunity to review how an insurer treats the insurance-buying public.

This section also has oversight of rating and statistical organizations and joint underwriting associations. It reviews licensing documents, filing of association bylaws and membership lists.

The Property and Casualty Section oversees state pools established to provide coverage to those who can not obtain insurance in the voluntary markets. The pools include: automobile insurance through the Missouri Joint Underwriting Association, dwelling fire insurance through the Missouri Property Insurance Placement Facility (or FAIR Plan), and the workers compensation assigned risk pool. The staff scrutinizes rate, rule and form filings and makes recommendations to the director.

Workers Compensation

Missouri deregulated rates in its regular workers compensation market on Jan. 1, 1994, under the provisions of landmark reform legislation — Senate Bill 251 of 1993. The deregulation of rates, new competitiveness in the market, and increased emphasis on workplace safety and managed care for injured workers have combined to halt and then reverse the spiraling cost of workers compensation coverage found in the early 1990s.

In 1996, loss ratios for workers compensation — benefits paid and incurred from workplace injuries that year as a percentage of premiums earned — fell to an all-time low of 47 cents on the dollar, based on more than 30 years of recordkeeping. Absolute losses fell from an all-time high of \$605 million in 1991 to \$279 million in 1996.

The 1996 loss ratio almost certainly foreshadowed record profitability for the workers compensation insurance industry, which already has enjoyed three consecutive years of record-breaking profits, all exceeding 20 percent on earned premium.

The profitability has fueled the industry's ability to continue cutting rates for Missouri businesses. From Jan. 1 to July 31, 1997, rate reductions averaging 12.4 percent were filed by 226 of 293 licensed workers compensation insurers in Missouri; only two filed increases. Of all licensed insurers, 216 were offering average rates below those prevailing before the state deregulated workers compensation premiums.

Based on those 1997 annualized rate reductions as well as 1995 and 1996 results, Missouri businesses have saved \$229 million in a deregulated commercial environment. To help business owners and managers find the least expensive policies on the market, MDI operates a hotline — 1-900-555-2267 — that provides the lowest 30 rates available for a nominal charge.

In 1995, the Department of Insurance also restructured the assigned risk pool, which consists of companies that cannot buy this mandatory coverage in the regular market. Administration of this pool now is contracted to the Travelers Insurance Company, and Missouri had the first program in the country to require a private insurer to accept financial risk for the pool's performance.

The onset of SB251 reforms and general improvement in regular market conditions have reduced the more expensive pool's population to about 10,000 from more than 30,000 firms. The remaining companies also receive far greater consulting on improving safety.

The oversight of the workers compensation pool is very different from oversight in other areas of property and casualty. Workers compensation pool rates are established after a public hearing. Any rules or forms also must be approved before their use by the insurance companies.

In addition, the staff assists other state agencies by calculating the rates, taxes and surcharges applicable to employers that meet certain criteria established by the Division of Workers Compensation to self-insure their workers compensation exposure.

Statistics

The statistics staff collects, edits, and analyzes information about the insurance industry in Missouri and provides actuarial and technical support for the department.

The data provided by the Statistical Section is used to identify issues and problems within the Missouri insurance industry related to availability, solvency, rate adequacy and excess, market conduct and industry trends.

The staff compiles all data reported by companies under requirements in Missouri statutes and regulations. During 1996, more than 6,000 statistical submissions were received from companies. The information is used to develop industry reports and to calculate assessments for the guaranty funds.

The following reports compiled by the Statistical Section are available to the public for a fee or are obtainable through the Missouri State Library System:

- **Missouri Department of Insurance Annual Report** summarizes the structure of the Department of Insurance and financial information on companies licensed in Missouri each year.
 - **Missouri Market Share Report** shows the top 35 companies, based on Missouri written premium, by line of business, including premium data, loss ratios and market share information for the past three years.
 - **Missouri Medical Malpractice Report, Missouri Real Estate Malpractice Report and Missouri Legal Malpractice Report.** All insurers writing these malpractice lines of insurance are required to file their closed claim data with the department. An aggregate report of claims analysis for the past three years is published annually.
 - **Missouri Products Liability Report.** All insurers writing product liability insurance are required to file their closed claim data with the department. An aggregate report of claims analysis, including three years of data, is published annually.
 - **Missouri Health Maintenance Organization Report.** All health maintenance organizations operating in Missouri are required to file supplement data with the department. The data includes enrollment by operating company and parent companies by region, utilization of physician encounters and inpatient days, and demographic details on enrollment with age and gender information.
 - **Missouri Complaint Index Report** provides information on the complaints filed against insurance companies during the past three years.
 - **Missouri Life, Accident & Health Supplement Report** provides data by specific lines of business on all life and health companies, health service corporations and fraternal companies licensed to conduct business in Missouri.
-

- **Missouri Commercial Liability Report** provides information on companies writing commercial liability insurance, including a profitability report and a summary of the claims, closed and outstanding, for specific commercial lines of insurance.
- **Mortgage Guaranty Report.** All insurers writing mortgage guaranty coverage file their written premium, losses paid, outstanding claim reserve, IBNR (incurred but not reported) reserve and contingency reserve amounts of their Missouri and nationwide business.

The statistics section also maintains these databases of insurance information:

- **Missouri Zip Code Insurance Data for Homeowners/Dwelling Fire, Farmowners (dwelling only), Mobile Home, Earthquake and Private Passenger Automobile.** Missouri Regulation 20 CSR 600-3.100 requires all insurers writing personal lines insurance to file their Zip Code data. This data is reported by Zip Code, exposures written, premium written, loss paid count and losses paid. This data has been collected on an annual basis, and some lines of business have been available since 1987.
- **Medicare Supplement Experience Data.** Since 1982, companies writing Medicare supplement insurance have reported their experience by policy number, which includes their premium and loss experience for a calendar year.
- **Property & Casualty Supplemental Data.** Since 1981, property and casualty companies have filed this supplement, detailing their premium and loss business for specific lines of insurance.
- **NAIC State Data Network.** The NAIC's database contains information from the annual reports of all insurance companies that write business in the United States.

Missouri statistical reports are available to the public for a \$35 fee, and some data is available to the public for a fee.

**Division
of
Consumer
Affairs**

Division of Consumer Affairs

The Division of Consumer Affairs includes the consumer services, investigations and title insurance sections. The Consumer Services Section handles inquiries and complaints from the public regarding all lines of insurance. The Investigations Section reviews complaints involving agents, brokers and agencies. The Title Insurance Section, created in 1996, handles all complaints and inquiries relative to title insurance and conducts audits of title insurance companies and their agents.

Consumer Services

Thousands of consumers contact the department each year for answers to their insurance questions. In 1996, consumer service specialists provided information to 70,561 persons and investigated 4,623 complaints.

The staff assists the public with information regarding insurance companies, health service corporations, health maintenance organizations, third party administrators and general insurance issues. Consumers may obtain information about a company's financial status, licensing status and complaints filed against it. Consumers may also inquire if an agent, broker, insurer or agency is licensed.

In disputed insurance claims, the staff acts as a liaison between the consumer and the company in resolving complaints. In 1996, consumer representatives recovered \$5,045,030 for Missouri citizens from insurance companies that had denied claims, denied premium refunds or otherwise disputed a settlement. Every complaint filed against an insurance company in Missouri is also catalogued according to its nature, type and disposition. The Division of Market Regulation uses this complaint index when deciding whether an examination is necessary to determine if a company is in compliance with Missouri laws.

In 1997, the Consumer Services Section added responsibilities for taking consumer complaints and inquiries and conducting preliminary investigations under the federal Health Insurance Portability and Accountability Act, or the so-called Kennedy-Kassebaum law. Because the Missouri General Assembly adopted no alternative state enforcement mechanism, however, the federal Health Care Financing Administration will enforce compliance with the statute, which extends new protections against the loss of health insurance coverage, limits the use of pre-existing condition exclusions and expands employer options for providing group coverage.

The Community Leaders Assisting the Insured of Missouri (CLAIM) program, a joint public-private sector program, was established in 1993. The program uses volunteer senior citizens trained to counsel people on the purchase of Medicare supplement insurance. In 1996, the program had 8,870 contacts that saved the beneficiaries \$597,596.

Seventeen people staff consumer service offices in Jefferson City, St. Louis and Kansas City. In addition, the division provides a toll free number, 800-726-7390, to assist consumers and a TDD line, 573-526-4536.

Investigations

The Investigations Section reviews consumer complaints that allege problems with agents, agencies and brokers. During 1996, the unit handled 1,037 investigations. Investigators also inquire into cases filed by companies alleging possible fraud by consumers.

After the Investigations Section completes its case, a report is filed with the department's legal section whose attorneys may file the case with the Administrative Hearing Commission (AHC) or the appropriate court. If the AHC finds that grounds exist for the department to revoke or suspend a license, the department then conducts a disciplinary hearing and renders a decision.

Title Insurance

The Title Insurance Section was created in 1996 to better regulate that industry, which operates very differently from other lines of insurance.

The Title Section answers inquiries about title companies, their agents and the laws governing them. The section reviews title regulations and statutes and audits insurers and their agents for compliance with the insurance laws of the state of Missouri. In 1996 the section audited seven companies.

**Division
of
Resource
Administration**

Division of Resource Administration

The Division of Resource Administration includes licensing, budget, personnel, support services and management information systems.

Licensing

This section processes licensing applications for agents, agencies and brokers; maintains computer records and continuing education records; and monitors education courses.

As of January 1997, there were 64,959 licensed agents, 7,219 brokers and 6,789 agencies in Missouri. Renewal licenses were issued to 25,302 individuals and 3,217 agencies. Licenses were also issued for surplus lines brokers, bail bond agents, general bail bond agents, public adjusters and public adjuster solicitors.

Agents and brokers applying for a license in Missouri are required to receive pre-licensing education. Besides issuing the licenses, the staff also monitors all the schools and instructors that provide education courses. In 1996, a state contractor administered 9,640 licensing exams.

This section also keeps education records for all licensed agents and brokers who must complete continuing education courses. To date, 7,862 courses have been approved to fulfill education requirements including professional designation courses, college classes, self-study courses, lectures, seminars and workshops. The only agents and brokers who are exempt from completing course work are those who reside in another state with mandatory education requirements.

All insurance companies are required to notify the Department of Insurance when they appoint or terminate an agent. In 1995, the department processed 89,001 appointments and 72,038 terminations.

Budget

The fiscal year 1997 budget for the Missouri Department of Insurance was \$10.3 million. The agency's budget request submitted to the Governor and General Assembly is monitored throughout the executive and legislative approval process by the budget officer. The Budget Section prepares Insurance Dedicated Fund balance projection reports annually, which take into consideration the increased appropriations requested by the agency as well as the agreed upon and finally approved appropriation amounts.

Support Services

The Support Services Section is responsible for administering the receipts and expenditures of state funds. These functions encompass accounts payable, accounts receivable, payroll, procurement, mailroom and storeroom, inventory, management of the department fleet, and the central office receptionist.

About \$22.8 million was collected in calendar 1996 for filing fees, licensing fees, regulatory fees, excess lines of insurance, forfeitures (fines), examiner billings and assessments, and miscellaneous receipts.

The department had three funds, seven appropriations and one grant that funded operations for fiscal year 1997.

Listed below is a summary of the revenues collected during calendar year 1996.

Revenues Collected

Agent License	\$ 2,222,336
Broker License	510,003

Examiners Fund	6,793,059
Federal Grant	175,898
County Foreign	3,206
Total:	\$22,758,377

Information Systems

The Information Systems Section is responsible for support of all information systems and computer hardware throughout the department, including application systems analysis, programming and technical services support. Information Systems coordinates electronic information exchanges between MDI and other entities such as federal and state governments, National Association of Insurance Commissioners (NAIC), private insurance companies and public requests.

Information systems is actively working with an internal committee to further enhance our Internet web site with more consumer-related information. The MDI web site can be accessed at this universal resource location (URL): <http://www.state.mo.us/insurance>.

Definition of Terms

DEFINITION OF TERMS

Admitted Assets - Assets whose values are permitted by state law to be included in the annual statement of the insurer.

After Tax Net Income - Net income from insurance operations, investments, and other sources less dividends to policyholders and taxes.

Common Capital Stock - The share of ownership in a corporation. A stock company would be considered a Stock Insurer. A Stock Insurer is an incorporated insurer with capital contributed by stockholders, to whom the earnings are distributed as dividends on their shares. A mutual company would be considered a Mutual Insurer. A Mutual Insurer is an incorporated insurer without incorporated capital owned by its policyholders. Although mutual insurers do distribute their earnings to their policyholders in the form of dividends, the term should not be used in a sense that makes it synonymous with participating. In most jurisdictions, a mutual insurer is free to issue nonparticipating insurance if it chooses and a stock insurer is free to issue participating insurance.

Direct, when referring to premium or losses - Describes the transaction between policyholder and the insurance company before reinsurance has been ceded and/or assumed.

Direct Life Claims & Benefits Paid - All benefits paid on life contracts and annuity contracts. Includes death benefits, matured endowments, annuity benefits, surrender values, and other claims.

Incurred Losses - Total indemnity costs of insured claims, including both sums already paid and estimates of those yet to be paid.

Liabilities - Money owed or expected to be owed.

Loss Ratio - Direct incurred losses divided by direct earned premium.

Medical & Hospital Expenses - Total expenditures for health care services.

Missouri Premium Tax - 2% tax on direct premium written (DPW) less allowable deductions and tax credits as per Missouri statutes. (Missouri Mutual companies: 1st \$1 million DPW is exempt, \$1 - \$5 million DPW at 1%, DPW over \$5 million at 2%)

Net, when referring to premium or losses - Describes the transaction between policyholder and the insurance company after reinsurance has been ceded and/or assumed.

Net Accident & Health (A&H) Written Premium - Amount charged when a policyholder contracts for accident & health insurance coverage after reinsurance has been ceded and/or assumed.

Net Investment Gain - Net income earned on investments. Includes interest, dividends, real estate income, and net realized capital gains.

Net Life Insurance in Force (000's = in thousands) - Value of life insurance in force at year end. Insurance in force from the previous year plus new contracts issued less contracts ceased during the year.

Net Underwriting Gain - Net income earned through actual insurance operations (premium earned less underwriting expenses, incurred losses, and loss adjustment expenses).

Net Worth - The amount by which assets exceed liabilities.

Other Missouri Premium - Health Maintenance Organization's (Missouri Medicare, Missouri Medicaid and Missouri Federal Premium).

Outstanding Losses - Net losses unpaid excluding loss adjustment expenses.

Policyholder Surplus - The amount over and above liabilities available for an insurer to meet future obligations to its policyholders. In the case of a mutual insurer, it is the whole equity section of the balance sheet. In the case of a stock insurer, the equity section is divided into two parts, stockholder's surplus and policyholder's surplus.

Premium Earned - The part of premium attributable to the coverage already provided in a given period (see definitions for net and direct).

Premium Written - Amount charged when a policyholder contracts for insurance coverage (see definitions for net and direct).

Reserves (Life, Accident and Health) - An amount representing actual or potential liabilities kept by an insurer to cover debts to policyholders.

Reserves & Unassigned Funds - The net worth portion of prepaid dental service corporation balance sheets.

Securities on Deposit - Capital deposit is required with the State of Missouri on domestic companies or otherwise approved by the director. Minimum deposits are: \$600,000 for life companies; \$800,000 for single line P/C companies; \$1,200,000 for multi-line P/C companies; \$150,000 for group/staff model HMOs; \$300,000 for individual practice association HMOs; \$400,000 for title companies; and \$50,000 for prepaid dental service corporations.

Total Direct Premium & Annuity Considerations - Amount charged when a policyholder contracts for life insurance coverage and contributions to annuities before reinsurance has been ceded and/or assumed.

Total Net Premium & Annuity Considerations - Amount charged when a policyholder contracts for life insurance coverage and contributions to annuities after reinsurance has been ceded and/or assumed.

Unearned Premium - Income received or booked in advance of the period to which it applies. A liability exists to render service in the future.

Workers Compensation Tax - 2% tax on workers compensation insurance direct premium written less allowable deductions and tax credits as per Missouri statutes.
